iOS Engineer

7+ years of experience in developing iOS Application in field of **E-Commerce, IoT and Image Processing**.
Recently getting involved with **technical leadership** to **help engineering teams to develop Apps**.

EXPERIENCE

Walmart Global Tech India SWE - IN4

June 2022 — Present *App Link: Walmart App*

- Walmart Shopping app is rated **4.8 with 12.7M ratings**. Written in **Swift with Combine and XCTests**.
- **Led a team of 4 engineers** to implement **2+** features like:
  - **DS Nations** (Introduced payment with Nations Benefit Card)
  - **ACC Slot Shortcut** (Quick reservations for Tire Installations)
  - **Led Release Cycles and Scrums** on rotational basis.
- Migrated Cart Page from StackView to CollectionView **improving UI Rendering time by >80%.**
- Introduced 5+ features for **Cart and Auto Care** Module in Walmart Shopping app in last 2 years like:
  - **Apple Care on Walmart.**
  - **Tyre Installation Packages.**
- **Added 100+ test cases** using XCTests to bring up **test coverage above 90%**.
- Collaborated with Product, Analytics & testing teams **across different timezone, locations and domains**.

Adobe Systems (via HSC) Senior SWE

June 2021 — June 2022 *App Link: Adobe PSX*

- Adobe PSX is rated **4.7 with 700K** ratings.
- Created a tool to convert the Collage Layouts from XD files to JSON files which reduced the size by **99%.**
- Changed the colour experience in iOS App to **increase space efficiency by 400%**.
- **Improved Usage Analytics capturing** for 3+ features to enhance user experience.
- Initiated experiments with A/B variants deploying Adobe Analytics to elevate successful variant.

NEC Corporation India Senior MTS

November 2017 — June 2021 *App Link: Connect by Luminous*

- Authored iOS application for Luminous Inverters using **UIKit, Swift, APNS, REST api** et al.
- **Trained one mentee** to develop iOS Applications.
- Developed iOS Application to login and join as Zoom User using Zoom SDK. Azure SDK provided Voice Transcription.
- Accomplished all requirements independently within given timelines. and Published the App to App Store.

Other Projects

Zuju Kickoff, March 2023 — June 2023 *App Link: Zuju Kickoff*

- Allows user to follow multiple football teams and get their timely updates.
- Implemented 3+ features in short stint.
- Removed a 3rd Party library from code base to make it more independent.
- Improved the Code Quality by reviewing peer pull requests.

CatPoison, March 2018 — April 2018 *App Link: CatPoison*

- Included Information of 1500+ plants to keep the Pets safe.
- Supported English and German as languages.

EDUCATION

Master of Computer Applications *73.71%*

Aug 2014 — 2017 **Harcourt Butler Technological Institute, Kanpur**

Bachelor of Science *61%*

June 2010 — 2013 **St. John's College, Agra**

SKILLS & BACKGROUND

Languages and Frameworks

- **Swift**
- **UIKit**
- **SwiftUI**
- **Combine**
- **Autolayout**
- **XCTest**
- **Python**
- **Objective-C**

Concepts

- **Data Structures**
- **OOPS**
- **AGILE**
- **MVC, MVVM-C**
- **RESTful APIs**
- **GraphQL APIs**
- **Testing**
- **App Store Publishing**

Tools

- **Xcode**
- **Git**
- **Charles**
- **JIRA**
- **SPM & Cocoapods**
- **Postman**
- **Firebase**

Hobbies

- **Video games**
- **Reading Books**
- **Foosball**
